Career Objective

Aspiring Full Stack Web Developer with a solid foundation in HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Enthusiastic about building responsive, user-focused web applications and eager to grow within a dynamic, forward-thinking team.

Work Experience

Full Stack Web Development Trainee

Internshala Trainings — Remote

Nov 2024 – June 2025

- Completed an intensive 8-month training program focused on full stack web development.
- Gained direct experience with HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js, and MongoDB.
- Built full-stack web applications demonstrating proficiency in responsive UI design and back-end API integration.
- Applied Agile methodologies and utilized Git and GitHub for version control and collaborative development.
- Delivered real-world projects and a capstone assignment to reinforce practical development skills and problem-solving abilities.

Education

Full Stack Web Development Certificate

Internshala Trainings Nov 2024 – June 2025

- Covered end-to-end web development including front-end, back-end, databases, and deployment.

Master of Computer Applications (MCA)

Himachal Pradesh Technical University (HPTU)

CGPA: 7.27 / 10

- Developed strong theoretical and practical understanding of software engineering, databases, and full stack development concepts.

Bachelor of Computer Applications (BCA)

Himachal Pradesh University (HPU) CGPA: 6.16 / 10

- Gained foundational knowledge in programming, data structures, and web technologies.

Teach Skills

- Frontend: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js
- Backend: Node.js, Express.js
- Database: MongoDB
- Version Control: Git, GitHub
- Other: RESTful APIs, Responsive Design

Projects

- *YouTube Clone*: During my training period, I developed a YouTube clone using the MERN stack (MongoDB, Express.js, React, and Node.js) to enhance my full-stack web development skills.
- *React Food App* : Developed a responsive food ordering app using React.js with real-time cart updates, modular components, and state management via React Hooks. **Tech Stack:** React.js, JavaScript, HTML, CSS, Tailwind.
